BIO	<p>I am a postdoctoral researcher working with Giovanni Vigna and Christopher Kruegel in the SecLab at UC Santa Barbara. My current research interests focus on several aspects of systems security: automated vulnerability discovery, human-assisted cyber reasoning systems, and malware analysis are all topics that spark my curiosity.</p> <p>I earned a Ph.D at EURECOM, where I was advised by Davide Balzarotti. Among other things, we investigated how non-atomic acquisitions impact the consistency of memory dumps, how to discover and to assess the quality of memory forensics heuristics, and how to automatically generate profiles for memory forensics.</p> <p>When I am away from keyboard, I enjoy hiking, rock climbing, surfing, and playing chess.</p>	
EDUCATION	Postdoctoral Researcher University of California, Santa Barbara, US	<i>Jan 2020-Current</i>
	Doctor in Philosophy (PhD) Eurecom, France Thesis: Advances in Memory Forensics	<i>Jan 2016-Sept 2019</i>
	MSc in Computer Science Università degli Studi di Milano, Italy Thesis: Defeating Return Oriented Programming Attacks Using Program Analysis Techniques Graduated with a final grade of 110/110 cum laude	<i>Feb 2013-Oct 2015</i>
	Internship Eurecom, France	<i>Feb 2015-May 2015</i>
	Erasmus Uppsala University, Sweden	<i>Jan 2014-Jun 2014</i>
	BSc in Computer Science Università degli Studi di Milano, Italy Thesis: When Hardware Meets Software: A Bulletproof Solution to Forensic Memory Acquisition Graduated with a final grade of 107/110	<i>Sep 2009-Feb 2013</i>

COMPETITIONS

I am a core member of the NOPS team. Along with my teammates, I qualified twice for the CSAW Europe Finals (in 2017 we got 2nd place) and **won** hxp CTF 2018.
